S.N. 1. Endorsement No. 3437-A-32, dated the 13th July, 1932, from the Collector and District Magistrate, Civil and Military Station, Bangalore.

Please see S.N. 15 and 16/85-24 in which the Government of India accorded sanction to the local purchase of Motor Prison Van. In accordance with the above order a prison Van was purchased locally in 1925 for Rs. 4708. The Commissioner of Police, Civil and Military Station, Bangalore, now states that the van is too heavy for the chasis and in consequence both the chasis and engine are badly worn. The van is now in a condition which necessitates its replacement as soon as possible i.e. within the next financial year. He therefore proposes that a sum of Rs. 4000/- may be provided in 1933-34 budget. The Collector and District Magistrate asks for the sanction of the Resident to make a provision of Rs. 4,000/- in the Assigned Tract budget for 1933-34.

Under Rules 3 and 5 of Appendix 4 to the Civil Account Code Volume I, the sanction of the Government of India is necessary to the local purchase of a new Prison Van. The sanction of the Government of India is also necessary to the provision of funds in the Assigned Tract budget for 1933-34. If approved the Government of India may be addressed in the matter. Submitted for orders.

The Commissioner of Police, Civil and Military Station,
Bangalore, U.O.

J. A.

I send herewith the letters I have had from Messrs Addison, & Hankerwis & Co.

The former offers to build a body on a Dodge chassis for Rs 650 & the latter a body on a Buick chassis for Rs 500/-. The former firm owns probably build a better body.

It is quite immaterial to me whether the chassis is purchased by the Indian Stores Dept or not or whether the chassis is a Chevrolet, Morris or Ford provided the chassis is capable of bearing a weight of at least a ton. It would most certainly be cheaper to build the body locally. There are Chevrolet Morris and Ford agents here.

Dear Sirs:

We understand that you contemplate purchasing a Prison Van in the near future, and wish to draw your attention to the new Bedford Truck Chassis, our first shipment of which has recently arrived. This Truck Chassis is built at the Vauxhall Works, Luton, England, and is now priced at Rs.3350/- for delivery at Bangalore.

We are prepared to allow you a special concession on one of these Units, and would invoice same to you at Rs.3000/- nett. A body can be constructed on this Chassis similar to the existing Prison Van an extra charge of Rs.500/-. We shall be glad if you will give our quotation your consideration when the occasion arises.

Thanking you for past favours, and soliciting your further valued patronage.

Yours faithfully,
For NANKERVIS LTD.,

Managing Director.

Dear Sir,

We thank you for the courtesy extended to the undersigned on the 21st inst., and we have much pleasure in forwarding an estimate for the dupply of a new Police van for your department.

As you are probably aware we supplied your present van to you several years ago, and this Dodge vehicle has we feel sure, given you every excellent service.

We have much pleasure in quoting as under for the supply of a new Dodge chassis fitted with a suitable van body.

Model UG30. 4 cylinder 131" wheelbase chassis. Total carrying capacity including body 5,675 lbs. Tyre equipment - Goodyear 6.00 x 20 Truck balloons on front wheels, 32 x 6 high pressure on rear wheels Rs. 3000/- fitted with police van body of suitable design incorporating driver's compartment with upholstered seat and side curtains, and enclosed van body with door at rear and wooden seats running down each side of the inside of van portion. There would also be provisions made for a constable to be accommodated in a small seat outside the back part of the van if required. This van would be fitted with suitable ventilating device and interior light, and would be very strongly constructed in our Body Works in Madras - using best seasoned timber and English body plates through out. The van would be painted any desired colour, and we can guarantee you a first class job which will last for many years. The price of this van body would be Rs.650/-. Therefore the total estimate for a 4 cylinder Dodge chassis fitted with van body complete would be Rs.3650/-

We can supply exactly the same Dodge chassis of the

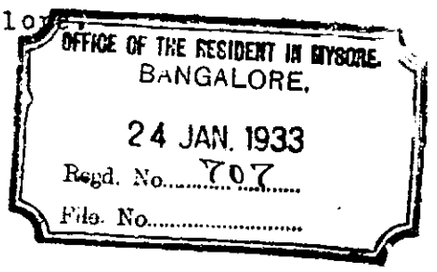
BANGALORE.

To

The Secretary to the Hon'ble
the Resident in Mysore, Bangalore.



Through

The District Magistrate,
C & M Station, Bangalore.

SIR,

S.N.I.

In continuation of my letter No. 942/A/32 dated 27th August 1932, I have the honour to request you will be so good as to address the Indian Stores Department regarding the supply of a Prison van. In my opinion it would be cheaper to have the body made locally. If however it is considered cheaper to purchase the chassis and body complete from the Indian Stores Department, I attach a sketch of the type of vehicle required. The wheelbase should not be less than 131 inches and the horse power not less than 15-9. A Bedford, Chevrolet, Dodge or Morris CX 35-40 cwt. chassis would be satisfactory and quotations may be asked for for every one of these types. The whole van complete on a Bedford chassis can be purchased locally for Rs. 3,500/- so that if the Indian Stores Department cannot quote a lower price it would not be worth while to purchase through them.

I have the honour to be,

Sir,

Your most obedient servant,

E. Sullivan

GOVERNMENT OF INDIA.

INDIAN STORES DEPARTMENT.

GENERAL SPECIFICATION No. P. I. 116

for

THE SUPPLY OF PLANT AND MACHINERY.

1. *General Conditions.*—The work required under this specification shall be carried out in accordance with the annexed General Conditions of Contract and such other specifications as may be issued, with the enquiry or order, by the Chief Controller of Stores, Indian Stores Department.

2. *Location of Site.*—As specified in the accompanying Schedule of Requirements.

3. *Atmospheric Conditions.*—As specified in the accompanying Schedule of Requirements.

4. *Extent of Work.*—The work required under this specification consists of the construction, supply and delivery, F.O.R. place named.

Each tender must cover the whole of the plant and apparatus together with all fittings and accessories including holding down bolts, nuts, jointing material, etc., as may be required to put the plant into proper working order. Should any article or material not specifically described in this specification be necessary for the efficient working of the plant, the same is to be included in the work covered by this specification.

5. *Duty of Plant.*—The plant is to be suitable, in every respect, for the duty stated in the Schedule of Requirements.

6. *Tenderers.*—Tenderers shall furnish full particulars of the plan, apparatus and instruments offered ; completing as fully as possible the Appendices, if any, to the Schedule of Requirements and to the annexed Specifications.

7. *Drawings.*—Unless otherwise specified in the Schedule of Requirements, tenderers are to put forward drawings showing the proposed layout of the station and the plant offered and the conditions, if any, laid down in the Schedule of Requirements. The layout should provide room for such additional sets as may be specified in the Schedule of Requirements to be installed later.

The drawings called for in Appendix ' A ' are to be submitted at the times given below. The drawings which must be in suitable scales, are to be marked and lettered as may be specified by the Chief Controller of Stores, Indian Stores Department.

(*a*) *Tender Drawings.*—The tender drawings to accompany the tender.

(*b*) *Foundation and Outline Drawings.*—The working drawings for all foundations required for the plant, and outline drawings, fully dimensioned, showing clearly all the arrangements necessary to be made for holding down bolts, pipes, trenches, cabled trenches, drains, etc., together with such specifications for foundations, etc., as may be required, are to be submitted by the contractor within one month from the date of acceptance in writing of the tender.

(*c*) *Contract Drawings.*—Fully dimensioned contract drawings are to be submitted within two months from the date of acceptance in writing of the tender.

(*d*) *Completion Drawings.*—The completion drawings when erection is to be carried out by the contractor are to be submitted within three months from the date of completion of tests at site. Tenderers are to quote a separate price for the completion tracings.

8. *Quality of Material.*—All material used in the construction of the work forming part of the contract is to be of the best quality of its kind obtainable and except where modified by this specification is to comply in all respects with the standards laid down by the British Engineering Standards Association. It must also fulfil such further requirements as stated in this specification. The whole of the work is to be of the highest class, well finished and of approved design and make.

9. *Compliance with the Law.*—All electrical work forming part of the contract is to be carried out in accordance with the requirements imposed by the

Indian Electricity Act, 1910, as modified up to date and the Indian Electricity Rules, 1922, as amended up to date.

10. *Tests and Inspection.*—The buyer reserves the right of carrying out any inspection or test at the maker's works during construction of the plant, in addition to the inspection and tests which are to be carried out after erection at site.

Normally, combined tests for electrical generating plant, except after erection at site, will not be required to be carried out at maker's works. The prime mover and generators specified will be tested separately at the maker's works. The motors, switchgear and other equipment will normally be inspected and tested at site. If the contract covers the supply of electrical generating plant with oil engines as prime movers, tests will be carried out as detailed in Appendix ' B '.

The successful tenderer will also submit in duplicate duly certified copies of test sheets of all standard tests carried out at maker's works during manufacture and before despatch of the plant.

11. (*i*) *Tools.*—The contractor is to provide the full outfit of tools, and spanners and special tools necessary for dismantling and assembling the plant together with a suitable steel rack for holding them. The spanners should be single-ended to fit each size of nut and bolt on the plant. None of the above tools and spanners is to be used by the contractor for erection or other purposes, but the whole is to be handed over to the buyer complete and intact.

(*ii*) *Spares.*—The contractor is to give full particulars and price of each part he recommends to be held as spares for two years' normal working of the plant. Full particulars of tools and spares supplied with the plant, and price of each item, are to be given in the tender.

12. *Nuts, Threads and Foundation Bolts.*—All bolts, nuts, studs and set screws are to be of good quality mild steel, well finished off with rounded ends. The threads must fit without shake. The necessary foundation bolts are to be provided together with plates or hooks, anchors, washers, etc. The bolts are to be of ample length and to be complete in every respect.

13. *Name Plates.*—All machines are to have metal plates fixed in an approved position, with full particulars of the name of maker, rated output, speed and other characteristics clearly marked thereon.

14. *Details of Plant and Guarantees.*—The tenderer is to give full details and figures of guarantees of the plant offered.

15. *Deviation from the Specification.*—Should a tenderer desire to depart in any respect from the provisions of this specification, either on account of manufacturing practice or for any other reason, he must specifically bring the matter to notice in his tender in the form of a covering letter explaining in detail each and every departure he proposes to make from the specification. Manufacturer's standard specifications for the plant or component parts of the plant may be submitted, but all discrepancies must be clearly drawn attention to, both in the covering letter referred to above and in the schedule and appendices which have to be filled in by the tenderer. The intention is to adopt manufacturer's standard equipment as far as possible but these standards must in all respects, comply with the conditions of this specification as regards safety from breakdown, output, capacity, performance, etc., and must pass the tests specified.

16. *Marking of Parts.*—In order to facilitate erection, the several parts of the plant are to be suitably marked.

17. *Painting.*—The whole of the plant except bright parts, is to receive one coat of painting in plain colour before packing, and the bright parts, are to be protected from rust. After erection, every painted part of the plant is to be well filled and stopped and then to receive either two coats of best oil paint in approved colour finally finished off with a coat of varnish, or two coats of approved gloss enamel.

18. *Packing.*—All materials are to be packed in suitable strong cases or crates. In the case of large articles such as bed plates, etc., which are not packed in cases, all screwed holes are to be plugged with wood and machined surfaces suitably protected.

19. *Maintenance.—Guarantee against defects.*—The contractor will be required to guarantee the plant for a period of one year from the date of the same being taken into beneficial use or from date of the completion of tests at site, whichever is earlier, against any defects that may develop under normal and proper use arising from bad material, design and workmanship. The fact

The Secretary to the Resident.

To

The Chief Controller of Stores,
Indian Stores Department.

Motor Prison Van.

Sir,

With reference to the correspondence ending with your letter No. N.1224, dated the 15th February, 1933, I am directed to forward an indent, in duplicate, for the purchase of a Motor Prison Van for the use of the Police Department, Civil & Military Station, Bangalore. I am to add that the schedule of requirements No. 1284 cover ~~our~~ requirements fully. The Van has to be washed with disinfectant frequently. It should be painted black outside and grey inside.

I have, etc.,

Secretary to the Resident.

body should be ordered is for your decision and each offer makes clear what type of body is included in the price. As you will appreciate it is not advisable to place an order of this kind solely on price, and in my opinion, although your Commissioner of Police has indicated in his letter dated the 18th January that the wheel base should not be less than 131", I would prefer that a wheel base of 157" should be ordered for this prison van.

It will be noted that Messrs. General Motors could deliver in approximately 4 weeks from date of receipt of order, but the Bedford chassis would not be available before the middle of April.

Please let me know as soon as possible which offer should be accepted and send an indent with your reply. Please return all quotations and the abstract of tenders with your reply.

I have the honour to be,
Sir,
Your most obedient servant,

J. Spence

Deputy Director,
for Chief Controller of Stores.

Acceptance of Tender.

Gentlemen,

I beg to inform you that your tender No. A-336, dated 6-3-33, for the stores specified in the Schedule on the reverse hereof has been this day accepted subject to the conditions under which you tendered to the extent of the quantity and on the terms as to delivery specified therein.

5108. 263/32

The Inspecting Officer should be informed when and where the goods will be ready for inspection.

Your particular attention is invited to the conditions of contract under which you tendered in regard to packing and notification of delivery and despatch. It is essential that packing notes and priced invoices shall be furnished to the consignee in respect of each and every consignment. The Railway receipt should be forwarded to the consignee immediately after despatch of stores, otherwise the demurrage charges, if any, paid by the consignee will be deducted from your bills.

In the case of orders placed for station of despatch, the stores should not be booked freight paid except when the supplier is specifically asked to do so either by the purchasing officer or indenting officer or consignee or in cases in which the carrying administration will not accept goods to pay. In cases in which prepayment of freight is essential, daily pay cash receipt should be pasted on the original stamped copy of the bill.

Your bills for the stores to be supplied in compliance with this order must be prepared in the special bill form obtainable from this office and submitted in strict accordance with the instructions printed thereon quoting the number and date of this order, the acknowledgment of which should reach this office not later than 1-6-1933.

Please quote on all letters and invoices the order number given above and Indent No. nil, dated nil, received from the Commissioner of Police, Civil & M, Station, Bangalore, under letter No. 2422/2/3 dated 1-6-1933 from the Secretary to the Resident in Mysore.

latest type, but alternatively fitted with a 6 cylinder engine in place of the 4 cylinder for the sum of Rs.300/- extra; bringing the total in this case to Rs.3950/- for a complete vehicle.

We are also pleased to advise you as Distributors in South India for the famous Morris Commercial trucks, we can offer you one of the latest type "RE" chassis for the sum of Rs.3340/- This chassis is ofcourse an entirely British product, and will serve you economically and faithfully for very many years, with the minimum of upkeep charges. We should be prepared to fit this chassis with a body as per specification above for the sum of Rs.650/-, bringing the total estimate for the Morris Police van complete up to Rs.3990/-

With regard to these estimates, we have cut the price as low as possible, and the prices quoted above are very much lower than our list selling prices. This particularly applies to the Morris "RE" type chassis and at the price offered there is only the barest margin of profit for us; but we want to give you the opportunity of using a British vehicle, and we have therefore offered you a very special concession.

Similarly with regard to the body; we have cut the price to the minimum and the workmenship and materials in this body will be very definitely of a much higher grade than a cheaper local built body.

We shall be pleased to quote these prices to you for the supply of either the Dodge or the Morris chassis early next year, and we should be grateful if you would kindly consider this estimate and let us have your decision, at your earliest convenience.

In the menatime, if there are any further details you may require, the undersigned will be only too pleased to offer you any advice or information, which you may need in helping you to arrive at a decision in the matter.

Specifications are enclosed herewith, and also a rough sketch of the type of body we should propose to fit.

Assuring you of our personal service at all times.

of the plant having been tested in the manufacturer's works by the buyer's Inspector will not exempt the supplier from the provisions of this clause. The same conditions apply in the case of defects arising due to erection by a contractor of any plant whether manufactured and supplied by him or by his sub-contractors.

20. *Delivery.*—Tenderers are required to quote for the plant delivered at the railway station specified. *The guaranteed time of delivery is to operate from the date of acceptance of tender in writing by the Chief Controller of Stores, Indian Stores Department.*

21. *Descriptive and Priced Catalogues, etc.*—Instructions in duplicate for the working of all the plant are to be provided by the contractor. Detailed descriptive catalogues of the plant are to be supplied together with a list, in duplicate, with the price of each of the spare parts actually supplied under this contract. Tenderers are to submit with tender a price list of spare parts recommended by the makers as suitable for two years' normal working of the plant offered. This list of spare parts should be as complete as possible and should make ample provision for all reasonable contingencies.

22. *Responsibility and Completeness.*—The contractor is to be entirely responsible for the execution of the contract in all respects in accordance with the terms of this specification, and the General Conditions of Contract notwithstanding any approval which the Inspector may have given of the detail drawings prepared by the contractor or his sub-contractor or of materials or other parts of the work involved in the contract or of tests carried out either by the contractor or by the Inspector. Any fittings, accessories or apparatus which may not have been mentioned in this specification but which are usual or necessary in the equipment of similar plant are to be provided by the contractor without extra charge. All apparatus must be complete in all details whether mentioned in this specification or not.

23. *Schedule.*—The schedule shall be filled in as fully as possible by tenderers. In addition tenderers must also submit separately a detailed analysis of the prices quoted by them in the schedule.

APPENDIX 'A'.

List of Drawings to be supplied.

Item No.	Description.	Class of Drawing.	Nos. required.	To be supplied to.
	Tender Drawings.

APPENDIX 'B'.

Test after erection at site if the Contract covers the Supply of Electrical Generating Plant

Note.—Artificial load, fuel and lubricating oil for not more than two official tests will be supplied by the Buyer

Item No.	Description of tests.	Remarks.
1	The engine generator sets will be run at continuous full load of the generator for 6 hours to ascertain the temperature rise of the generator windings, etc., in accordance with clause 13 of this Schedule of Requirements, and the temperature of the engine and generator bearings. This will be immediately followed by 1 hour 10 per cent. overload of the *engine rated output*, due allowances being made for the atmospheric conditions at site at the time of the test	
2	Speed regulation, voltage regulation, and parallel running tests.	
3	Fuel and lubricating oil consumption will be taken during these tests and any further tests found necessary at site	
4	As the engine is guaranteed for a continuous night and day running duty, the Inspecting Officer may, if he considers necessary, call for about 150 or 12 hours (as may be specified in the enquiry or contract) continuous run of the set at the full load of the generator to satisfy himself that the engine complies with the requirements of this specification.	
5	Insulation tests.

FROM

THE CHIEF CONTROLLER OF STORES,
INDIAN STORES DEPARTMENT,

To

The Secretary to the Hon'ble The Resident in Mysore,
Bangalore.

Subject:- Tender for I.S.D.Order No.N.1224
Purchase of a new motor prison van.

Sir,

With reference to your letter No.807/263-1932 dated 31st January 1933, I have the honour to inform you that tenders for the prison van you require were called for from all likely suppliers and the following tenders are sent herewith in original:-

1. Messrs. Morris Industries (India)Ld.,Bombay.
2. " Simpson & Co.,Ld., Madras.
3. " Ford Motors, Bombay.
4. " Bombay Cycle & Motor Agency Ld.,Bombay.
5. " General Motors India Ld., Bombay.

I also enclose an abstract of the tenders showing the price and brief particulars of each vehicle offered by the different firms in order to facilitate your examination of the tenders.

It will be seen that the lowest tenders have been submitted by Messrs. General Motors, Bombay. This firm have made 10 alternative offers, the lowest of their offers for a Bedford Model WS 131" wheel base chassis with a body to this Department's specification. The same chassis with a body as per the firm's specification would cost Rs.3495/-. Messrs. General Motors have also offered Bedford Model with 157" wheel base and also Chevrolet trucks with 131" wheel base and 157" wheel base. The question of which type of
